Directors' Report

The Directors present their report on Encounter Resources Limited (the Company) and the entities it controlled (the Group) at the end of, and during the year ended 30 June 2015.

Directors

The names and details of the Directors of Encounter Resources Limited during the financial year and until the date of this report are:

Paul Chapman – B.Comm, ACA, Grad. Dip. Tax, MAICD, MAusIMM

Non-Executive Chairman appointed 7 October 2005

Mr Chapman is a chartered accountant with over twenty five years' experience in the resources sector gained in Australia and the United States. Mr Chapman has experience across a range of commodity businesses including gold, nickel, uranium, manganese, bauxite/alumina and oil/gas. Mr Chapman has held managing director and other senior management roles in public companies of various sizes. Mr Chapman is the chairman of ASX listed gold producer Silver Lake Resources Ltd.

During the last 3 years, Mr Chapman was a director of Rex Minerals Limited (resigned 31 December 2013), and Phillips River Mining (resigned 26 March 2014).

Will Robinson – B.Comm, MAusIMM

Managing Director (Executive) appointed 30 June 2004

Mr Robinson is a resources industry commercial and finance specialist with over twenty years' experience in commercial management, transaction structuring and negotiation, business strategy development and London Metals Exchange metals trading. Mr Robinson held various senior commercial positions with WMC in Australia and North America from 1994 to 2003. Mr Robinson has extensive experience in the sale and distribution of commodities and was Vice President – Marketing for WMC's nickel business from 2001 to 2003. Mr Robinson founded Encounter Resources Limited in 2004 and has overseen the development of the Company as its Managing Director. Mr Robinson is the President of the Association of Mining and Exploration Companies (AMEC).

Peter Bewick – B.Eng (Hons), MAusIMM

Exploration Director (Executive) appointed 7 October 2005

Mr Bewick is an experienced geologist and has held a number of senior mine and exploration geological roles during a fourteen year career with WMC. These roles include Exploration Manager and Geology Manager of the Kambalda Nickel Operations, Exploration Manager for St Ives Gold Operation, Exploration Manager for WMC's Nickel Business Unit and Exploration Manager for North America based in Denver, Colorado. Whilst at WMC, Mr Bewick gained extensive experience in project generation for a range of commodities including nickel, gold and bauxite. Mr Bewick has been associated with a number of brownfields exploration successes at Kambalda and with the greenfield Collurabie Ni-Cu-PGE discovery.

Jonathan Hronsky - BAppSci, PhD, MAusIMM, FSEG

Non-executive director appointed 10 May 2007

Dr. Hronsky has more than twenty five years of experience in the mineral exploration industry, primarily focused on project generation, technical innovation and exploration strategy development. Dr. Hronsky has particular expertise in targeting for nickel sulfide deposits, but has worked across a diverse range of commodities. His work led to the discovery of the West Musgrave nickel sulfide province in Western Australia. Dr. Hronsky was most recently Manager-Strategy & Generative Services for BHP Billiton Mineral Exploration. Prior to that, he was Global Geoscience Leader for WMC Resources Ltd. He is currently a Director of exploration consulting group Western Mining Services and Chairman of the board of management of the Centre for Exploration Targeting at the University of Western Australia.

During the last 3 years Dr Hronsky has been a director of Cassini Resources Limited (appointed 3 April 2014).

Issued Capital

<i>Number of Shares on Issue</i>		
	2015	2014
Ordinary fully paid shares	134,543,350	132,543,350

Dividends

No dividend has been paid since the end of the previous financial year and no dividend is recommended for the current year.

Matters Subsequent to the End of the Financial Year

Other than the matters below, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

- On 29th July 2015 the Company's existing farm-in arrangement with Antofagasta plc was terminated. On the same date the Company entered into a separate up to US\$6 million earn-in arrangement at the Company's Lookout Rocks copper prospect within the Yeneena Project.
- On 22nd September 2015 the Company announced that it had received firm commitments of \$1.5 million from investors in respect of a share placement, and was also undertaking a Share Purchase Plan to existing eligible shareholders to raise up to a further \$1.4 million.

Likely Developments and Expected Results of Operations

Disclosure of any further information has not been included in this report because, in the reasonable opinion of the Directors to do so would be likely to prejudice the business activities of the Group and is dependent upon the results of the future exploration and evaluation.

Directors' Report

Environmental Regulation and Performance

The Group holds various exploration licences to regulate its exploration activities in Australia. These licences include conditions and regulations with respect to the rehabilitation of areas disturbed during the course of its exploration activities.

So far as the Directors are aware, all exploration activities have been undertaken in compliance with all relevant environmental regulations.

Remuneration Report (Audited)

Remuneration paid to Directors and Officers of the Company is set by reference to such payments made by other ASX listed companies of a similar size and operating in the mineral exploration industry. In addition reference is made to the specific skills and experience of the Directors and Officers.

Details of the nature and amount of remuneration of each Director, and other Key Management Personnel if applicable, are disclosed annually in the Company's Annual Report.

Remuneration Committee

The Board has adopted a formal Remuneration Committee Charter which provides a framework for the consideration of remuneration matters.

The Company does not have a separate remuneration committee and as such all remuneration matters are considered by the Board as a whole, with no Member deliberating or considering such matter in respect of their own remuneration.

In the absence of a separate Remuneration Committee, the Board is responsible for:

1. Setting remuneration packages for Executive Directors, Non-Executive Directors and other Key Management Personnel; and
2. Implementing employee incentive and equity based plans and making awards pursuant to those plans.

Non-Executive Remuneration

The Company's policy is to remunerate Non-Executive Directors, at rates comparable to other ASX listed companies in the same industry, for their time, commitment and responsibilities.

Non- Executive Remuneration is not linked to the performance of the Company, however to align Directors' interests with shareholders' interests, remuneration may be provided to Non-Executive Directors in the form of equity based long term incentives.

1. Fees payable to Non-Executive Directors are set within the aggregate amount approved by shareholders at the Company's Annual General Meeting;
2. Non-Executive Directors' fees are payable in the form of cash and superannuation benefits;
3. Non-Executive superannuation benefits are limited to statutory superannuation entitlements; and
4. Participation in equity based remuneration schemes by Non-Executive Directors is subject to consideration and approval by the Company's shareholders.

The maximum Non-Executive Directors fees, payable in aggregate are currently set at \$200,000 per annum.

Encounter Resources Limited
ABN 47 109 815 796

Directors' Report

Remuneration Report (Continued)

Executive Director and Other Key Management Personnel Remuneration

Executive remuneration consists of base salary, plus other performance incentives to ensure that:

1. Remuneration packages incorporate a balance between fixed and incentive pay, reflecting short and long term performance objectives appropriate to the Company's circumstances and objectives; and
2. A proportion of remuneration is structured in a manner to link reward to corporate and individual performances.

Executives are offered a competitive level of base salary at market rates (based on comparable ASX listed companies) and are reviewed regularly to ensure market competitiveness. To date the Company has not engaged external remuneration consultants to advise the Board on remuneration matters.

Incentive Plans

The Company provides long term incentives to Directors and Employees pursuant to the Encounter Resources Employee Share Option Plan, which was last approved by shareholders at the Annual General Meeting held on 30 November 2012.

The Board, acting in remuneration matters:

1. Ensures that incentive plans are designed around appropriate and realistic performance targets and provide rewards when those targets are achieved;
2. Reviews and approves existing incentive plans established for employees; and
3. Approves the administration of the incentive plans, including receiving recommendations for, and the consideration and approval of grants pursuant to such incentive plans.

Engagement of Non-Executive Directors

Non-Executive Directors conduct their duties under the following terms:

1. A Non-Executive Director may resign from his/her position and thus terminate their contract on written notice to the Company; and
2. A Non-Executive Director may, following resolution of the Company's shareholders, be removed before the expiration of their period of office (if applicable). Payment is made in lieu of any notice period if termination is initiated by the Company, except where termination is initiated for serious misconduct.

In consideration of the services provided by Dr Jon Hronsky as Non-Executive Director the Company will pay him \$50,000 plus statutory superannuation per annum.

In consideration of the services provided by Mr Paul Chapman as Non-Executive Chairman the Company will pay him \$60,000 plus statutory superannuation per annum.

Messrs Chapman and Hronsky are also entitled to fees for other amounts as the Board determines where they perform special duties or otherwise perform extra services or make special exertions on behalf of the Company. There were no such fees paid during the financial year ended 30 June 2015.

Remuneration Report (Continued)

Engagement of Executive Directors

The Company has entered into executive service agreements with Mr Will Robinson and Mr Peter Bewick on the following material terms and conditions:

Mr Robinson's current service agreement with the Company, in respect of his engagement as Managing Director, is effective from 23 January 2013. Mr Robinson will receive a base salary of \$290,000 per annum plus statutory superannuation.

Mr Bewick's current service agreement with the Company, in respect of his engagement as Exploration Director, is effective from on 23 January 2013. Mr Bewick will receive a base salary of \$270,000 per annum plus statutory superannuation.

Messrs Robinson and Bewick may also receive an annual short term performance based bonus which may be calculated as a percentage of their current base salary, the performance criteria, assessment and timing of which is negotiated annually with the Non-Executive Directors.

Messrs Robinson and Bewick may, subject to shareholder approval, participate in the Encounter Resources Employee Share Option Plan and other long term incentive plans adopted by the Board.

Short Term Incentive Payments

Each year, the Non-Executive Directors set the Key Performance Indicators (KPI's) for the Executive Directors. The KPI's are chosen to align the reward of the individual Executives to the strategy and performance of the Company.

Performance objectives, which may be financial or non-financial, or a combination of both, are weighted when calculating the maximum short term incentives payable to Executives. At the end of the year, the Non-Executive Directors will assess the actual performance of the Executives against the set Performance Objectives. The maximum amount of the Short Term Incentive, or a lesser amount depending on actual performance achieved is paid to the Executives as a cash payment.

No Short Term incentives are payable to Executives where it is considered that the actual performance has fallen below the minimum requirement.

Shareholding Qualifications

The Directors are not required to hold any shares in Encounter Resources under the terms of the Company's constitution.

Group Performance

In considering the Company's performance, the Board provides the following indices in respect of the current financial year and previous financial years:

	2015	2014	2013	2012	2011
Profit/(Loss) for the year attributable to shareholders	\$523,915	\$(748,166)	\$(1,566,249)	\$(758,706)	\$(4,933,106)

Group Performance (Continued)

As an exploration company the Board does not consider the profit/(loss) attributable to shareholders as one of the performance indicators when implementing Short Term Incentive Payments. In addition to technical exploration success, the Board considers the effective management of safety, environmental and operational matters and successful management of the Company's farm-in arrangements, the acquisition and consolidation of Yeneena landholdings, as more appropriate indicators of management performance for the 2015 financial period.

Officers' Indemnities and Insurance

During the year the Company paid an insurance premium to insure certain officers of the Company. The officers of the Company covered by the insurance policy include the Directors named in this report.

The Directors and Officers Liability insurance provides cover against all costs and expenses that may be incurred in defending civil or criminal proceedings that fall within the scope of the indemnity and that may be brought against the officers in their capacity as officers of the Company. The insurance policy does not contain details of the premium paid in respect of individual officers of the Company. Disclosure of the nature of the liability cover and the amount of the premium is subject to a confidentiality clause under the insurance policy.

The Company has not provided any insurance for an auditor of the Company.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company or Group, or to intervene in any proceedings to which the Company or Group is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company or Group with leave of the Court under section 237 of the Corporations Act 2001.

Non-audit Services

During the year Crowe Horwath the Company's auditor, has not performed any other services in addition to their statutory duties.

Total remuneration paid to auditors during the financial year:	2015 \$	2014 \$
Audit and review of the Company's financial statements	31,000	33,000
Other services	-	-
Total	31,000	33,000

The board considers any non-audit services provided during the year by the auditor and satisfies itself that the provision of any non-audit services during the year by the auditor is compatible with, and does not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services are reviewed by the board to ensure they do not impact the impartiality and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*, as they do not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

Notes to the Financial Statements
For the financial year ended 30 June 2015

Note 1 Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes financial statements for the consolidated entity consisting of Encounter Resources Limited and its subsidiaries ("Group").

(a) Basis of preparation

This general purpose financial report has been prepared in accordance with Australian equivalents to International Financial Reporting Standards (AIFRS), other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial report is presented in Australian dollars and all values are rounded to the nearest dollar.

The separate financial statements of the parent entity have not been presented within this financial report as permitted by the Corporations Act 2001.

The financial report of the Group was authorised for issue in accordance with a resolution of Directors on 24th September 2015.

Statement of Compliance

The consolidated financial report of Encounter Resources Limited complies with Australian Accounting Standards, which include Australian Equivalents to International Financial Reporting Standards (AIFRS), in their entirety. Compliance with AIFRS ensures that the financial report also complies with International Financial Reporting Standards (IFRS) in their entirety.

Adoption of New and Revised Standards - Changes in accounting policies on initial application of accounting standards

In the year ended 30 June 2015, the Group has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for the current annual reporting period. It has been determined by the Group that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Group accounting policies.

A number of new standards, amendments to standards and interpretations are effective for annual reporting periods beginning after 1 July 2015, and have not been applied in preparing these financial statements. None of these are expected to have a significant effect on the Group.

The Group does not plan to adopt any standards early and the extent of the impact has not been determined.

Reporting basis and conventions

These financial statements have been prepared under the historical cost convention, and on an accrual basis.

Critical accounting estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Notes to the Financial Statements
For the financial year ended 30 June 2015

Note 1 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

Principles of consolidation

The financial statements of subsidiary companies are included in the consolidated financial statements from the date control commences until the date control ceases. The financial statements of subsidiary companies are prepared for the same reporting period as the parent company, using consistent accounting policies.

Inter-entity balances resulting from transactions with or between controlled entities are eliminated in full on consolidation. Investments in subsidiary companies are accounted for at cost in the individual financial statements of the Company.

(b) Segment reporting

Operating segments are identified and segment information disclosed, where appropriate, on the basis of internal reports reviewed by the Company's board of directors, being the Group's Chief Operating Decision Maker, as defined by AASB 8. Adoption of AASB 8 by the Group has not resulted in a redefinition of previously reported operating segments.

(c) Revenue recognition and receivables

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, allowances and amounts collectable on behalf of third parties.

Interest income

Interest income is recognised on a time proportion basis and is recognised as it accrues.

Option fee income

Revenue is recognised for option fee income at such time that the option fee becoming receivable by the Company occurs.

(d) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to the temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary timing differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantially enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to those timing differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Encounter Resources Limited
ABN 47 109 815 796

Notes to the Financial Statements
For the financial year ended 30 June 2015

Note 1 Summary of significant accounting policies (continued)

(d) Income tax (continued)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

(e) Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases (note 25). Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight line basis over the period of the lease.

(f) Impairment of assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units). Non financial assets, other than goodwill, that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

(g) Cash and cash equivalents

For cash flow statement presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(h) Government grants

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to assets is deducted from the carrying value of the asset.

Amounts receivable from the Australian Tax Office in respect of research and development tax concession claims are recognised in the year in which the claim is lodged with the Australian Tax Office. Amounts receivable are allocated in the financial statements against the corresponding expense or asset in respect of which the research and development concession claim has arisen.

(i) Fair value estimation

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

ABN 47 109 815 796

Notes to the Financial Statements

Note 1 Summary of significant accounting policies (continued)

(j) Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the assets. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation of property, plant and equipment is calculated using the straight line and diminishing value methods to allocate their cost, net of residual values, over their estimated useful lives, as follows:

Asset Class	Depreciation Rate
Field Equipment and Vehicles	33%
Office Equipment	33%
Leasehold Improvements	Over the term of the lease

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(f)). Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement.

(k) Mineral exploration and evaluation expenditure

Mineral exploration and evaluation expenditure is written off as incurred or accumulated in respect of each identifiable area of interest and capitalised. These costs are carried forward only if they relate to an area of interest for which rights of tenure are current and in respect of which:

- such costs are expected to be recouped through the successful development and exploitation of the area of interest, or alternatively by its sale; or
- exploration and/or evaluation activities in the area have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active or significant operations in, or in relation to, the area of interest are continuing.

In the event that an area of interest is abandoned or if the Directors consider the expenditure to be of reduced value, accumulated costs carried forward are written off in the year in which that assessment is made. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Immediate restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are expensed as incurred and treated as exploration and evaluation expenditure. Exploration activities resulting in future obligations in respect of restoration costs result in a provision to be made by capitalising the estimated costs, on a discounted cash basis, of restoration and depreciating over the useful life of the asset. The unwinding of the effect of the discounting on the provision is recorded as a finance cost in the income statement.

Note 1 Summary of significant accounting policies (continued)

(k) Mineral exploration and evaluation expenditure (continued)

Farm-in arrangements (in the exploration and evaluation phase)

For exploration and evaluation asset acquisitions (farm-in arrangements) in which the Group has made arrangements to fund a portion of the selling partner's (farmor's) exploration and/or future development expenditures (carried interests), these expenditures are reflected in the financial statements as and when the exploration and development work progresses.

Farm-out arrangements (in the exploration and evaluation phase)

The Group does not record any expenditure made by the farmee on its account. It also does not recognise any gain or loss on its exploration and evaluation farm-out arrangements but redesignates any costs previously capitalised in relation to the whole interest as relating to the partial interest retained.

Monies received pursuant to farm-in agreements are treated as a liability on receipt and until such time as the relevant expenditure is incurred.

(l) Joint ventures and joint operations

Joint ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Investments in joint ventures are accounted for using the equity method. Under the equity method, the share of the profits or losses of the joint venture is recognised in profit or loss and the share of the movements in equity is recognised in other comprehensive income. Investments in joint ventures are carried in the statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the joint venture. Goodwill relating to the joint venture is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. Income earned from joint venture entities reduce the carrying amount of the investment.

Joint operations

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. The Group has recognised its share of jointly held assets, liabilities, revenues and expenses of joint operations. These have been incorporated in the financial statements under the appropriate classifications.

Details of these interests are shown in Note 13.

(m) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and usually paid within 30 days of recognition.

Note 1 Summary of significant accounting policies (continued)

(n) Employee benefits

Wages, salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future salaries, experience of employee departures and periods of service. Expected future payments are discounted at the corporate bond rate with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Share based payments

Share based compensation payments are made available to Directors and employees.

The fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free rate for the term of the option. A discount is applied, where appropriate, to reflect the non-marketability and non-transferability of unlisted options, as the Black-Scholes option pricing model does not incorporate these factors into its valuation.

The fair value of the options granted is adjusted to reflect market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each balance sheet date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate.

Upon the exercise of options, the balance of the share based payments reserve relating to those options is transferred to share capital and the proceeds received, net of any directly attributable transaction costs, are credited to share capital.

Upon the cancellation of options on expiry of the exercise period, or lapsing of vesting conditions, the balance of the share based payments reserve relating to those options is transferred to accumulated losses.

(o) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Notes to the Financial Statements
For the financial year ended 30 June 2015

Note 1 Summary of significant accounting policies (continued)

(p) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the earnings attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(q) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as a part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the balance sheet.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the taxation authority, are presented as operating cash flow.

(r) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(s) Investments and other financial assets

Recognition

When financial assets are recognised initially, they are measured at fair value, plus in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets after initial recognition and, when allowed and appropriate, re-evaluates this designation at each financial year-end.

All regular way purchases and sales of financial assets are recognised on the trade date, i.e. the date that the Group commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the marketplace.

(i) Financial assets at fair value through profit or loss

A financial asset designated on initial recognition as one to be measured at fair value with fair value changes in profit and loss is included in the category 'financial assets at fair value through profit or loss'.

Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on investments held for trading are recognised in profit or loss.

Note 1 Summary of significant accounting policies (continued)

(s) Investments and other financial assets (continued)

(ii) Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold to maturity. Investments included to be held for an undefined period are not included in this classification. Investments that are intended to be held-to-maturity, such as bonds, are subsequently measured at amortised cost. This cost is computed as the amount initially recognised minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initially recognised amount and the maturity amount. This calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts. For investments carried at amortised cost, gains and losses are recognised in profit or loss when the investments are derecognised or impaired, as well as through the amortisation process.

(iii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

(iv) Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Fair value hierarchy

The Group's investments and other financial assets, are measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

(t) Fair value estimation

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods:

Investments in equity and debt securities

The fair value of financial assets at fair value through profit or loss, held to maturity investments and available for sale financial assets is determined by reference to their quoted bid price at the reporting date. The fair value of held to maturity investments is determined for disclosure purposes only. For investments with no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions, reference to the current market value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models.

ABN 47 109 815 796

Notes to the Financial Statements
For the financial year ended 30 June 2015

Note 1 Summary of significant accounting policies (continued)

(t) Fair value estimation (Continued)

Trade and other receivables

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data

Note 2 Financial risk management

The Group has exposure to a variety of risks arising from its use of financial instruments. This note presents information about the Company's exposure to the specific risks, and the policies and processes for measuring and managing those risks. The Board of Directors has the overall responsibility for the risk management framework and has adopted a Risk Management Policy.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from transactions with customers and investments.

Trade and other receivables

The nature of the business activity of the Group does not result in trading receivables. The receivables that the Group does experience through its normal course of business are short term and the most significant recurring by quantity is receivable from the Australian Taxation Office, the risk of non-recovery of receivables from this source is considered to be negligible.

Cash deposits

The Directors believe any risk associated with the use of predominantly only one bank is addressed through the use of at least an A-rated bank as a primary banker and by the holding of a portion of funds on deposit with alternative A-rated institutions. Except for this matter the Group currently has no significant concentrations of credit risk.

Note 2 Financial risk management (Continued)

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages its liquidity risk by monitoring its cash reserves and forecast spending. Management is cognisant of the future demands for liquid finance resources to finance the Company's current and future operations, and consideration is given to the liquid assets available to the Company before commitment is made to future expenditure or investment.

(c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising any return.

Interest rate risk

The Group has significant cash assets which may be susceptible to fluctuations in changes in interest rates. Whilst the Group requires the cash assets to be sufficiently liquid to cover any planned or unforeseen future expenditure, which prevents the cash assets being committed to long term fixed interest arrangements; the Group does mitigate potential interest rate risk by entering into short to medium term fixed interest investments.

Equity risk

The Group has exposure to price risk in respect of its holding of ordinary securities in Hampton Hill NL (ASX: HHM), which has a carrying value at 30 June 2015 of \$1,568,194 (2014: Nil). The investment is classified at fair value through profit or loss and as such any movement in the market value of HHM shares will be recognised as a benefit of expense in profit or loss. No specific hedging activities are undertaken into this investment.

Foreign exchange risk

The Group enters into earn-in arrangements that may be denominated in currencies other than Australian Dollars.

Whilst the Group does not recognise assets or liabilities in respect of these earn-in arrangements and accordingly fluctuations in foreign exchange rates will have no direct impact on the Group's net assets, movements in foreign exchange may favourably or adversely affect future amounts to be incurred by the Group or its earn-in partners pursuant to such agreements.

Other than the above, the Group does not have any direct contact with foreign exchange fluctuations other than their effect on the general economy.

Note 3 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

Accounting for capitalised exploration and evaluation expenditure

The Group's accounting policy is stated at 1(k). There is some subjectivity involved in the carrying forward as capitalised or writing off to the income statement exploration and evaluation expenditure, however management give due consideration to areas of interest on a regular basis and are confident that decisions to either write off or carry forward such expenditure reflect fairly the prevailing situation.

Accounting for share based payments

The values of amounts recognised in respect of share based payments have been estimated based on the fair value of the equity instruments granted. Fair values of options issued are estimated by using an appropriate option pricing model. There are many variables and assumptions used as inputs into the models. If any of these assumptions or estimates were to change this could have a significant effect on the amounts recognised. See note 18 for details of inputs into option pricing models in respect of options issued during the reporting period.

Note 4 Segment information

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics. The Group's sole activity is mineral exploration and resource development wholly within Australia, therefore it has aggregated all operating segments into the one reportable segment being mineral exploration.

The reportable segment is represented by the primary statements forming these financial statements.

Note 14 Interest in joint ventures and farm-in arrangements

a) Joint Venture Agreements – Joint Operations

Joint venture agreements have been entered into with third parties. Details of joint venture agreements are disclosed below.

Assets employed by these joint ventures and the Group's expenditure in respect of them is brought to account initially as capitalised exploration and evaluation expenditure (Refer Note 13) until a formal joint venture agreement is entered into. Thereafter, investment in joint ventures is recorded distinctly from capitalised exploration costs incurred on the company's 100% owned projects.

Lake Way Uranium Joint Venture Agreement – Joint Operation

Under the Lake Way Uranium Joint Venture dated 1 July 2007 between Avoca Resources Limited and the Company, the Company has a 60% joint venture interest in the uranium rights at the Lake Way South tenement. The parties are contributing to expenditure in accordance with their equity interest. Encounter is the manager of the joint operation. The company's interest in the joint operation may increase to 75% if Avoca elects to dilute its interest in the tenement and be free carried though to decision to mine. Included in the assets and liabilities of the Group were the items below which represented the Group's interest in the assets and liabilities employed in joint operations.

Joint Operations – Financial Results and Carrying Values

The total amount of the Group's capitalised exploration and evaluation expenditure capitalised and employed under joint venture agreements at the reporting date is Nil (2014: \$179,596 (note 13)).

b) Farm-in Arrangements

The Company is party to the following farm-in arrangements:

Antofagasta Yeneena farm-in – Antofagasta Minerals Perth Pty Ltd earning-in

Antofagasta Minerals Perth Pty Ltd entered into a farm-in and joint venture agreement with the Company in respect of granted tenements EL45/2658 and EL45/2805 that form part of the Company's wholly owned Yeneena Project. The agreement covered an area of 433km² and comprises the southern extents of the Yeneena Project that incorporate the BM1, BM7 and BM8 copper prospects.

Significant terms of the farm-in arrangement were as follows:

- 5 year initial earn-in phase under which Antofagasta may acquire a 51% joint venture interest by expenditure of US\$20 million and may withdraw at any time subject to a meeting a minimum spend of US\$3 million;
- A second earn-in phase, should Encounter not elect to contribute to exploration costs under the joint venture, under which Antofagasta may acquire a further 19% interest by completion of a pre-feasibility study within 4 years of Encounter electing not to contribute;
- If Antofagasta completes a pre-feasibility study during the second earn-in phase it must pay Encounter US\$15 million or contribute US\$15 million in lieu of Encounter's contribution to its proportionate share of feasibility study costs;
- If a decision to mine is made subsequent to the completion of a feasibility study and Encounter elects not to proceed, Antofagasta may acquire Encounter's interest at 90% of an agreed value determined by independent expert valuation.
- Amounts set out in the Earn-in and Joint Venture Agreement are in United States dollars, provided that the Australia dollar to United States dollar exchange rate published by the Reserve Bank of Australia is between 1.15 and 0.95 (the "Acceptable Range"). If the Exchange Rate is outside the Acceptable Range on the date cash payment is due, the Exchange Rate will be set at 1.05 United States dollar for each 1 Australian dollar.
- On 29th July 2015 this farm-in arrangement was terminated with Encounter retaining a 100% interest in the granted tenements.

Encounter Yeneena Lookout Rocks Farm-in – Antofagasta Minerals Perth Pty Ltd earning-in

Antofagasta Minerals Perth Pty Ltd has entered into a farm-in and joint venture agreement with the Company in respect of granted tenements EL45/4091, EL45/4408, EL45/4230 and EL45/3768 that form part of the Company's wholly owned Yeneena Project. The agreement covers an area of 450km² untested exploration ground located in the north-west of the Yeneena Project.

Significant terms of the farm-in arrangement as follows:

- 2 year initial earn-in phase under which Antofagasta may acquire a 51% joint venture interest by expenditure of US\$2 million and may withdraw at any time subject to a meeting a minimum spend of US\$500,000;
- A second earn-in phase, under which Antofagasta may acquire a further 19% interest by contributing expenditure of US\$4 million within 2 years;
- In the event of a decision to mine Antofagasta will pay the Company US\$3 million.

St Barbara Limited (SBM) – ENR earning-in

Encounter Resources Limited entered into a farm-in agreement with St Barbara Limited in respect of tenement applications ELA45/3232 and ELA45/3308 in the Paterson Province of Western Australia. The agreement covered an area of 60km² and is located to the north-east of the Company's Yeneena Project.

Significant terms of the farm-in arrangement as follows:

- 4 year initial earn-in phase under which ENR may acquire a 51% joint venture interest by expenditure of \$500,000, and may withdraw at any time subject to a meeting statutory minimum required spends;
- 2 year second phase, should SBM not elect to contribute to joint venture exploration costs, under which ENR may acquire a further 19% interest by sole funding expenditure of a further \$500,000;
- If SBM elects not to contribute at the end of the second phase standard industry dilution formulas will apply down to a 5% interest. If SBM's interest dilutes below 5% it will automatically revert to a 1.5% net smelter royalty.
- Subsequent to the end of the financial year Encounter notified SBM of its withdrawal from the earn-in agreement without earning an interest in the tenements.

Hammer Metals Limited (HMX) (formerly Midas Resources Limited (MDS)) – ENR Earning-in

Encounter Resources Limited entered into a farm-in agreement with Hammer Metals Limited in respect of granted tenements EL45/3768 and EL45/4091 in the Paterson Province of Western Australia. The agreement covered an area of 316km² and is located adjacent to the Company's Yeneena Project.

Significant terms of the farm-in arrangement as follows:

- 4 year initial earn-in phase under which ENR may acquire a 70% joint venture interest by expenditure of \$500,000, and may withdraw at any time subject to a meeting statutory minimum expenditure required spend for the first year;
- 2 year second phase, should HMX not elect to contribute to joint venture exploration costs during this second phase, under which ENR may acquire a further 15% interest by sole funding expenditure of a further \$500,000;
- If HMX elects not to contribute at the end of the second phase HMX may elect to convert its participating interest into a 1.5% net smelter royalty.

During the year the farm-in agreement was terminated and the Company acquired a 100% interest in the HMX farm-in tenements by the issue of 750,000 ordinary fully paid shares to Hammer Metals Limited, at a fair value of \$112,500 (Note 17c).

Millennium Zinc Project – Hampton Hill NL (HHM) Earning-in

Encounter Resources Limited has entered into a farm-in agreement with Hampton Hill Limited pursuant to which HHM may earn up to a 25% interest in the Company's Millennium zinc project, comprising exploration licences EL45/2501, EL45/2561 and four blocks of EL45/2500 in the Paterson Province of Western Australia.

Significant terms of the farm-in arrangement as follows:

- HHM must spend a minimum of \$500,000 on exploration before withdrawal. Upon meeting this minimum commitment, HHM will acquire a 10% interest in Millennium ("Initial Earn-in Phase"). At that point, HHM (10%) and Encounter (90%) will form a joint venture.
- To preserve its initial 10% interest and maintain the right to earn a further 15% interest, HHM may then elect to sole fund an additional \$500,000 ("Second Earn-in Phase"). At completion, HHM will have contributed \$1,000,000 and retained its 10% interest in Millennium. The timing of this additional expenditure will be as determined by Encounter.
- HHM may then elect to contribute a further \$1,000,000 out of the next \$2,000,000 of exploration expenditure to earn a further 15% interest in Millennium ("Additional Earn-in Phase"). The timing of this expenditure will be determined by Encounter.
- At that point, after contribution of a total of \$2,000,000 of exploration expenditure, HHM would hold a 25% and Encounter would hold a 75% interest in the joint venture.
- Industry standard expenditure contribution or dilution formulas would apply. If a party's interest is diluted to less than 10%, that interest would convert to a 1% Net Profit Royalty.
- Encounter will be the Operator
- If, after the Initial Earn-in Phase, HHM elects to maintain its 10% interest, but forfeit their right to further earn-in, then at that point, HHM will issue 5% of the issued capital of Hampton to Encounter.
- If, after the Initial Earn in Phase, HHM elects to proceed with the Second Earn-in Phase, then at that point, HHM will issue 15% of the issued capital of HHM to Encounter. If this election is made then Encounter will have the right to appoint a member to the board of HHM.
- The earn-in and joint venture agreement is conditional upon Encounter obtaining all necessary consents and approvals to the grant of the earn-in rights to HHM.

As at 30 June 2015 HHM had acquired a 10% interest in the Millennium project pursuant to the Initial Earn-in Phase, and had elected to proceed with the Second Earn-in Phase.

Options outstanding at the end of the year	7,370,000	30.2	10,170,000	87.8

Weighted average contractual life

The weighted average contractual life for un-exercised options is 29.8 months (2014: 18.1 months).

Basis and assumptions used in the valuation of options.

The options issued during the year were valued using the Black-Scholes option valuation methodology.

Date granted	Number of options granted	Exercise price (cents)	Expiry date	Risk free interest rate used	Volatility applied	Value of Options
28 November 2014	1,250,000	23 cents	27 November 2018	2.65%	93.3%	\$91,263
28 November 2014	750,000	31 cents	27 November 2019	2.65%	93.3%	\$56,123
12 February 2015	800,000	16 cents	31 January 2019	2.09%	102.0%	\$39,648

Historical volatility has been used as the basis for determining expected share price volatility, as it is assumed that this is an indicator of future tender, which may not eventuate.

A discount of 30% in respect of a lack of marketability has been applied to the Black-Scholes option valuation to reflect the non-negotiability and non-transferability of the unlisted options granted.

Note 24 Contingencies

(i) Contingent liabilities

There were no material contingent liabilities not provided for in the financial statements of the Group as at 30 June 2014 or 30 June 2015 other than:

Yeneena Project Gold Claw-back

Included in the agreement for the Group's acquisition of the remaining 25% interest in the Yeneena Project is a gold claw-back right in the event of a major discovery of a deposit of minerals dominant in gold, with gold revenue measured in a mining study equal to or exceeding 65% of total revenue and where a JORC compliant mineral resources exceeds 4,000,000 ounces of gold or gold equivalent, or is capable of producing at least 200,000 ounces of gold or gold equivalent per year for 10 years. Under the agreement Barrick (Australia Pacific) Limited retains the right to regain an interest of between 70 and 100% in the gold discovery at a price of between US\$40-100 per ounce, with a 1.5% net smelter royalty to Encounter Resources.

Native Title and Aboriginal Heritage

The Group has Land Access and Mineral Exploration Agreements with Western Desert Lands Aboriginal Corporation in relation to the tenements comprising the Yeneena Project. Western Desert Lands Aboriginal Corporation ((Jamukurnu-Yapalikunu/WDLAC) is the Prescribed Body Corporate for the Martu People of the Central Western Desert region in Western Australia.

Native title claims have been made with respect to areas which include tenements in which the Group has an interest. The Group is unable to determine the prospects for success or otherwise of the claims and, in any event, whether or not and to what extent the claims may significantly affect the Group or its projects. Agreement is being or has been reached with various native title claimants in relation to Aboriginal Heritage issues regarding certain areas in which the Group has an interest.

Bank guarantees

ANZ Bank has provided unconditional bank guarantees (refer Note 8) as follows:

- \$23,000 in relation to the lease over the Company's office premises at Level 7, 600 Murray Street, West Perth; and
- \$50,000 in relation to the Company's corporate credit card facility.

(ii) Contingent assets

There were no material contingent assets as at 30 June 2014 or 30 June 2015.

Note 25 Commitments

(a) Exploration

The Group has certain obligations to perform minimum exploration work on mineral leases held. These obligations may vary over time, depending on the Group's exploration programmes and priorities. As at balance date, total exploration expenditure commitments on tenements held by the Group have not been provided for in the financial statements and which cover the following twelve month period amount to \$1,408,500 (2014: \$1,371,000).

The exploration expenditure obligations stated above include amounts that are funded by third parties pursuant to various farm-in agreements (Note 14).

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ENCOUNTER RESOURCES LIMITED

Report on the Financial Report

We have audited the accompanying financial report of Encounter Resources Limited, which comprises the consolidated statement of financial position as at 30 June 2015, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's Opinion

In our opinion:

- (a) the financial report of Encounter Resources Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the consolidated financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 14 of the directors' report for the year ended 30 June 2015. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion, the Remuneration Report of Encounter Resources Limited for the year ended 30 June 2015 complies with section 300A of the *Corporations Act 2001*.
